Awesome Subrogation Recovery

A DPI customer recently collected \$130,000.00 on a camera battery fire file without an attorney, which was a 54% recovery! The customer collected \$2,000.00 from the retailer here in the US, but most significantly \$128,000.00 was collected directly from the Chinese manufacturer! A fantastic recovery all from DPI's expert report which only cost the customer \$610.00.
